Let's partner in Cloud with **Oracle**

Advantage Tee Off

For two decades, we have been mastering the game and know what it takes to get there. Accelerating right at the tee-off, we build sustained advantage all along. Our innovative cloud solutions have evolved through expertise and collaborative work regimes. These solutions drive advantages for a multitude of industries spread across geographies. We handle the diversity of scale, implementation, environments, and business lifecycles.

Our mature methodologies remain at the core. We draw upon the specialisation of experts who hold more than five hundred certifications such as CPA, APICS, and MPs.

As a certified Oracle Cloud Implementation Partner, we specialize in accelerated and predictable implementation cycles, fueling up faster and definitive growth trajectories for organizations. Our long standing alliance with Oracle encompasses joint industry solutions and product development.

Stay Ahead

"Jade recently helped us implement Oracle Cloud ERP finance and procurement functions, as well as integrations with our Zuora billing and revenue applications. We successfully implemented the tool within a very aggressive timeline based on a solution provided by the Jade team. We continue to use Jade post going live."

- Renowned digital security company

"Jade is our partner for the Fusion project implementation and support. They deployed a very strong Solution Architecture team with deep Oracle Fusion (ERP) implementation experience, that has gone above and beyond, to ensure success for us. We are extremely happy and strongly recommend Jade."

- American multinational conglomerate and social networking platform giant

Victory Lap

Implementations and migrations can be tricky when not handled with expertise. We address the complexities with perfected prebuilt maps, preconfigured demos, knowledge code diagrams, mature tools, and methodologies.

Jade's celebrated Cloud Implementation Methodology (JCIM) works in tandem with a holistic set of proven tools. Jade Delivery Platform (JDP) assures consistent delivery using evolved templates, checklists, and project management processes. We have detailed and matured processes for Risk Mitigation, Cost of Implementation, Business Continuity, Ease of Adoption, Data Migration Configurations, and Security Considerations.

Our Cloud 360 methodology framework provides a practical path for companies invested in Oracle applications. Cloud 360 Assessment and Oracle Cloud Migrator (OCM) tools work closely with integrated automation platforms to reduce cost and effort by nearly 40 per cent.
