Tune Into World's #1 ERP Cloud With Jade Global

For businesses, the cloud offers a \$1 trillion opportunity, yet many are unable to fully capitalize on it. Cloud is not to be approached as an upgrade of your IT system; it's a change of business-style; how you plan, operate, interact, engage and deliver.

Oracle NetSuite is the manifestation of true cloud technologies that rejuvenate operations, drive innovation and spur experimental forays into new markets and verticals.

The True Cloud: Oracle NetSuite

Oracle NetSuite is the world's most trusted and deployed cloud-based ERP solution. 31,000 fast-growing organizations across the globe trust their business to NetSuite Cloud-based business management suite of applications. And are successfully unlocking the full potential of cloud by achieving resilience, performance and efficiency in their business, while reinforcing quality and cost-saving.

Why NetSuite?

1. Unified View of Business

2. Native Integrations

3. True Cloud

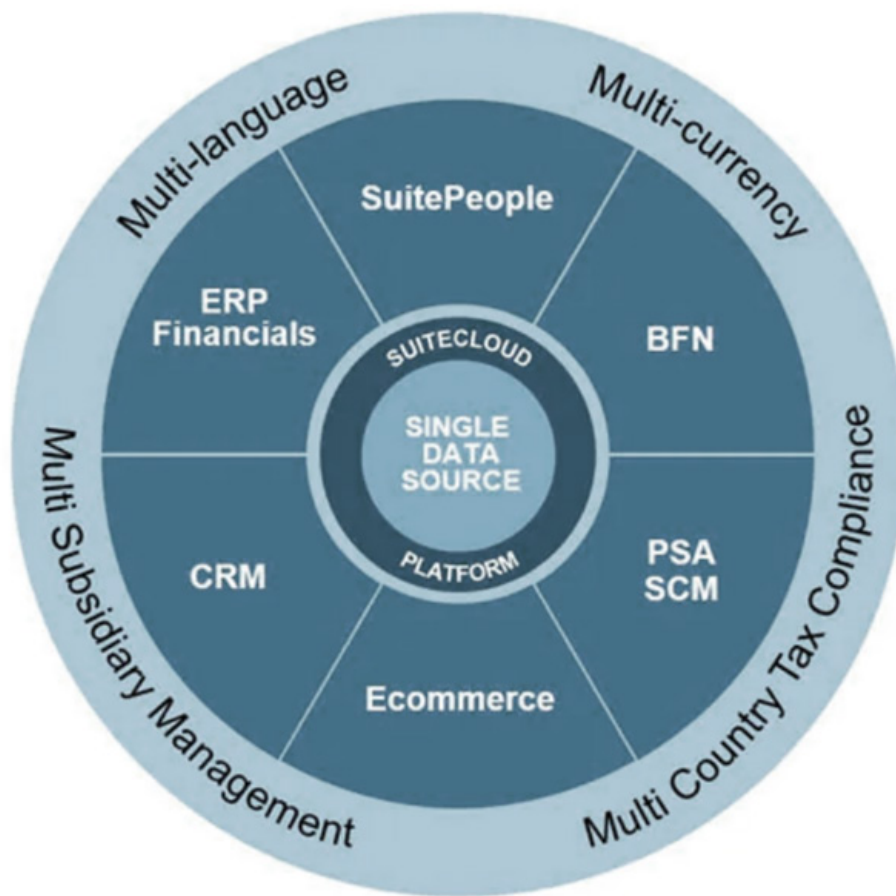

4. Deep Reporting Capabilities

5. Built-in Flexibility

NetSuite Gives You the Power to:

1. Scale Easily:

Obtain the adaptability, scalability, and agility your company needs to drive innovation and expansion.

2. Develop a Fuller Understanding of Your Business:

For a unified view of the organization, built-in business intelligence offers real-time insights into important business performance metrics.

3. Future-proof your business:

Say goodbye to version locks and gain agility with always-up-to-date software that includes any customizations made to serve your business.

Embrace the Value Creating Change

NetSuite Application Services by Jade

The value potential of the cloud is massive, but the adapting organization must understand the realities of cloud economics. With thinking stuck in in the legacy world of on-premises computing, there is no real move to the cloud.

Oracle NetSuite is building incredible cloud-based products and platforms that unleash innovations in addressing legacy and emerging business challenges. And we are harnessing the potential of these platforms at the greatest speed in the market, and delivering to our clients the right technological solutions, accelerating their paths to value in all directions.

Deep Dive

Industry specific solutions by Jade

We serve our clients with the promise of betterment and agility in their digital orientation. We have created the best IT alliances, worked through the years, have expanded our resource hub and technical expertise to deep dive into understanding the needs of our clients. Our industry-specific service portfolio is mostly pre-configured solutions that help businesses achieve higher ROI by reducing the implementation time and execution errors.

Life Sciences

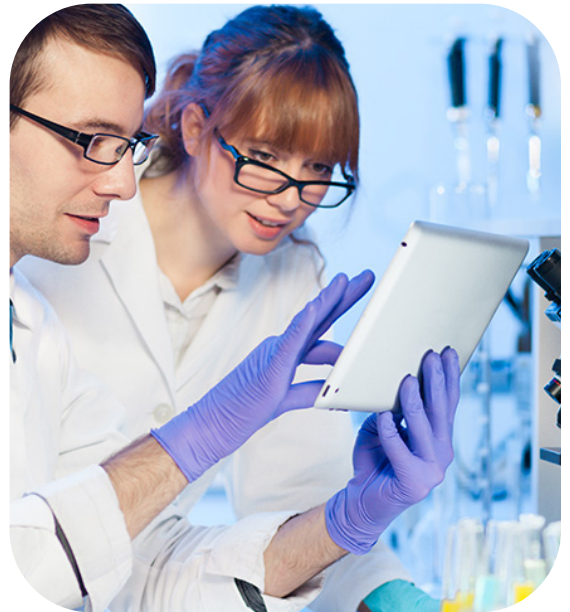

Jade has leveraged NetSuite Cloud in building a Digital Operations Platform (DOP) platform for the Life Sciences industry.

It's a pre-configured industry-specific solution for managing:

- Contract manufacturing
- Procurement
- Distribution
- Supply Chain planning
- Intelligent Track & Trace

Highlights of Jade DOP

- Built considering the GxP requirements of the Life Sciences industry
- Allows integrating with CMO, CPO, 3PL, Planning and Quality
- Improves the efficiency of supply chain operations and financials
- Facilitates enterprise planning & budgeting for financial reporting

High-Tech

Specifically for the high-tech industry, Jade has developed a pre-configured solution in SFDC and NetSuite using Dell Boomi as an Integration Platform.

Highlights

- Offers multiple options for the front-office and back-office operations
- Configured with Sales flows for New Order, Amendment, Renewals, Insertion Orders (IO), eCommerce Orders, Returns / Cancellations/ Replacements and Revenue Sharing.
- Fully configured to demo all the key business processes such as
 - o Record to Report
 - o Source to Pay
 - o Plan to Deliver
 - o Asset to Retire
 - o Ideation to Product
 - o Order to Cash
 - o Revenue Management
 - o Project to Invoice
 - o Hire to Retire.
- Can be leveraged to demo various use cases in PPT as well as Live demo formats.

Jade Value Addon

One Team - A Common Goal— To drive meaningful 360° digital transformations that are Progressive, Holistic, and Sustainable.

Kanverse Adapter for NetSuite

- AP Invoice Scanning Solution (IDP) to create Vendor Bills
- Approvals

Industry Solutions for Hi-Tech and Life Sciences

- Preconfigured NetSuite instance
- Salesforce Integration with 3 different pricing options
- Contract Manufacturing (CMO, CPO), 3PL Integrations for Life Sciences

Ecosystem partnerships & Integration Experience

- Other ISV Partnerships: Avalara, SFDC, Zuora/Revpro, Workday, Boomi
- NS Integration Solutions / Experience: SFDC, Zuora/RevPro, Coupa, Avalara, Stripe, Bill.com, Legacy Systems, Workday, Shopify & Amazon

JSFM SuiteApp

- Full lot control in WIP
- Integrate with NetSuite
- Use the native application features for costing, planning, and PLM.
- Jade B2B for Subcon Integrations
- Supports Binning and Grading.
- View Full Lot Genealogy

Client Testimonial

I appreciate Jade Global's hard work and perseverance in getting NetSuite live in Germany on November 2, 2022, expanding Beauty Health's global infrastructure and core ERP platform to an important international business location.

Jade Global developed dozens of integrations, workflows, forms, and configurations, all while keeping pace with the needs of our business and the challenges with our external logistics vendors. Each team member gave 100% and ran the project in a highly thoughtful way, keeping up with the time and best practices of global implementations. Well done by all! This success gives us the confidence to plan next for NetSuite in France & Spain.

Jeff Wills

SVP, Global Head of Business Technology, HydraFacial
