

# Tune Into NetSuite Cloud ERP With Jade Global

ORACLE  
NetSuite  
Alliance Partner

**A trusted partner, bringing value-added innovative solutions to accelerate your cloud journey**

**Seventy-nine percent** of businesses are migrating from on-premise ERP systems to cloud-based alternatives, and NetSuite is the choice of over 37,000 clients worldwide. NetSuite is the No. 1 Cloud-native Enterprise Resource Planning (ERP) solution for small to midsize fast-growing businesses, offering built-in flexibility, commerce-ready applications, and data analytics.

For over a decade, we at **Jade Global**, a NetSuite Alliance Partner, have been helping businesses solve their biggest tech challenges with NetSuite and achieve higher ROI through cost optimization, efficiency, and Jade's unique innovations.

## Why NetSuite?

**Simplify Financial Management**

Access consolidated statements, revenue tracking, and precise budgeting

**Stay Future-Ready**

Enjoy seamless updates with customizations intact

**Expand Globally**

Manage subsidiaries, currencies, and taxes with ease

**Monitor KPIs Instantly**

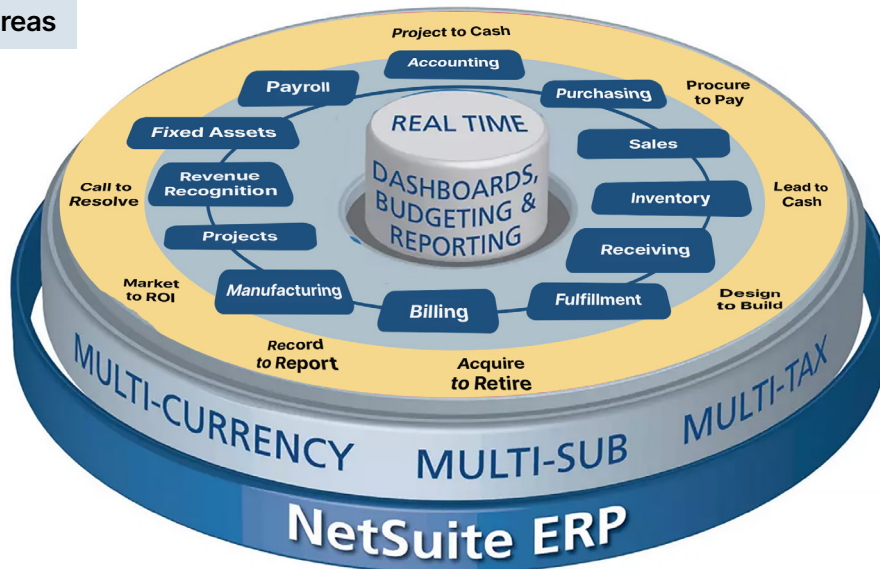

Leverage real-time dashboards and analytics

- › 130+ NetSuite Certifications
- › 100+ NetSuite Consultants
- › 99% Customer Retention
- › 20+ ISV Partners
- › 8 Offices Worldwide
- › 4 Global Delivery Centers

*Making the leap from on-premises to the cloud wasn't just about the mandate to modernize; we were looking for more agility, reliable connectivity for our remote workforce, and infrastructure cost optimization. Jade Global helped us tap into our trapped data and streamline our operations through automation. It was essential to fulfill the transformational needs of clients with optimism and confidence.*

- **Kalki Radhakrishnan**  
CIO, California Eastern Laboratories, Inc

*Sword Health engaged Jade Global as their NetSuite system integration partner to implement NetSuite for its US Finance area of the business. Despite the initial challenges, the Jade team focused on the project objectives, showed flexibility in their approach to align with our business needs, worked effectively with our leadership, and executed the project on an agreed-upon timeline and budget. This project was a great success story for Sword, and I am extremely pleased with Jade's ability to successfully implement this project. I am happy to recommend them to other customers for such implementations.*

**- Marcus Heitor**

*Chief Accounting Officer, Sword Health*

## AI-Powered AP Automation: Kanverse

Eliminate manual document handling and achieve Zero-Touch Intelligent Document Processing for unmatched efficiency. →

## Trial Balance Automation Accelerator

Convert your legacy data with automated mapping of NetSuite account segmentation and import your trial balance with ease.

*I appreciate Jade Global's hard work and perseverance in getting NetSuite live in Germany on November 2, 2022, expanding Beauty Health's global infrastructure and core ERP platform to a significant international business location. Jade Global developed dozens of integrations, workflows, forms, and configurations, all while keeping pace with the needs of our business and the challenges with our external logistics vendors. Each team member gave 100% and ran the project in a highly thoughtful way, keeping up with the time and best practices of global implementations. Well done by all! This success gives us the confidence to plan next for NetSuite in France & Spain.*

- **Jeff Wills**

*SVP, Global Head of Business Technology, HydraFacial*

*We are live with the new version of scripts in the finance and custom records modules in NetSuite. This project is important as we are moving away from using older versions of scripts following our OCI migration. This upgrade is crucial as it enhances scalability and allows us to use new features in the future. The transition has posed a significant challenge, especially in identifying various UAT users, coordinating time with them, and effectively communicating the reasons behind this change. However, with the collective efforts of the team, we have achieved success.*
