

Knowledge Base AI

Transform your NetSuite documents, PDFs, and databases into actionable intelligence in real time through the chatbot.

The Business Challenge

Business leaders constantly face the challenge of spending hours sifting through multiple NetSuite documents, PDFs, and databases to consolidate information about contracts, sales pipelines, opportunities, leads, and company performance. This approach to unlocking insights is a huge time drain that delays business decisions.

The Solution

Knowledge Base AI by Jade Global is a Gen AI-powered solution that unlocks insights by transforming NetSuite documents, PDFs, databases, and more into actionable intelligence through the chatbot. It accelerates your search across scattered documents so that you can find instant answers to your business queries through conversational prompts.

Benefits to your Business

- **Organize your Knowledge Base with AI:** Optimize your contract management and get precise answers to your queries in real-time.
- **Minimum effort & accurate responses:** Always have the right information at your fingertips to build customer proposals, performance reports, or any other documentation without depending on anyone.
- **Faster results in interactive mode:** Swiftly control and monitor key operational parameters for proactive management.
